NO REASON FOR A REDUCTION.

There are at work some serious disturbances to the coal miner and mine laborer in the Western Kentucky field. A number of mine owners have reduced the price paid the miner from 20 per cent to 35 per cent. Others have tried to do this but failed, the miners very justly claiming that there exists no good reason for any reduction in the price of mine labor at this time.

With the exception of Nashville, Tenn., there has been no reduction in the prices at which Western Kentucky coal is sold in the various markets for the past two

does Bradley of Kentucky. For years the Kentucky Republicans have gone into a national conventions as by courtesy, controlling no electoral votes, representing no great principle in advance of their party and presenting no name that commanded the confidence of the party for practical success. But now for the first time they have a leader whose name in the St. Louis convention will evoke more disinterested enthusiasm than any other, and who can challenge any other Republican in the country to show the same probable strength before the people of the whole country.

But the end is at hand. We are told by this democratic administration that we are in the midst of a crisis, but what is the cature of the emergency? Too many treasury notes in circulation! Another explanation is that, as a result of reublican legislation in the interest of silver in the past, the country is threatened with a silver Basis. From the inception of the Cleveland administration this has been the common excuse for bond issues. That is what a democratic "crisis" means. The cause is apparent. Democratic mismanagement
